**Subject: Enhancing accessibility at [Venue Name] with Auracast audio**

Dear [Name or Title],

I am a frequent visitor to [Venue Name] and highly value the [services/events/programs] you provide to our community. I am writing to suggest a simple, highly cost-effective way to make your venue significantly more accessible to people with hearing difficulties and users of modern audio tech.

By installing a small Auracast broadcast audio transmitter to your existing sound system, you can allow anyone with compatible hearing aids, cochlear implants, or consumer Bluetooth earbuds to stream crystal-clear audio directly to their ears.

Unlike older assistive listening systems that cost thousands of dollars and require major renovations, Auracast is a compact, affordable, plug-and-play solution. It drastically reduces background noise for the listener and ensures [Venue Name] remains a leader in community inclusion.

I would love to share a quick link or information page with your technical or facilities team if you are open to exploring this. Thank you for your time and your continued commitment to our community.

Best regards,

[Your Name]
